

# PRECISION SILICONE FOR ELECTRONIC & INDUSTRIAL APPLICATIONS

Consistent silicone components with reliable production quality.

COIN CELL BATTERIES • SECONDARY BATTERIES • PCB ASSEMBLY • ENGINEERING SERVICES  
INJECTION MOLDED COMPONENTS • CONNECTORS • HARNESSSES • MAGNETICS • & MORE!

## CUSTOM SILICONE

**Silicone components provide durability, flexibility, and environmental resistance for many products.**

Kingway supplies custom molded silicone components designed to deliver reliable performance in demanding applications. Through our global manufacturing network and engineering partnerships, we support the production of silicone parts used in user interfaces, sealing systems, and protective components across multiple industries.

### CUSTOM MOLDED SILICONE PARTS

Kingway supports the **production of precision silicone components** used in electronic products and mechanical assemblies.

- Silicone rubber keypads and button interfaces
- Custom molded silicone parts
- Protective covers and flexible components
- Silicone seals and gaskets
- Silicone interface components for electronic devices

These components provide excellent **durability, flexibility, and resistance to environmental conditions.**

### MATERIAL & DESIGN OPTIONS

Silicone rubber can be **molded into complex shapes while maintaining excellent performance characteristics.**

- High-temperature resistant silicone materials
- Flexible and durable molded designs
- Custom colors and surface finishes
- Printed or laser-etched keypad markings
- Multi-durometer and multi-material molding options

These capabilities allow designers to create silicone components that **combine functionality, durability, and a clean user interface.**

### APPLICATIONS:

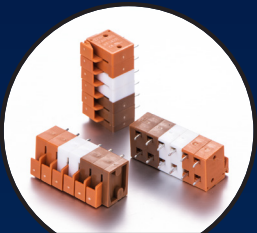

- Consumer Electronics • Industrial Equipment • Automotive Controls • Medical Devices
- User Interface Keypads • Sealing Systems • Protective Covers
